Skilled Education Programs for:

Business, Executive, Administrator, and SO/PI/PPO Security Officer education Programs :
Private Security Officer
Private Investigator (QM)
Private Patrol Officer
Administrative, and Insurance Agents/Brokers, Insurance Sales Producers, Insurance Agency Managers, Insurance Customer Service Rep. "Pre-Licensing State Exam Education" Program and "Skill Education" Programs.

If you are unemployed or underemployed you may qualify for the State Government to pay for your education cost for these programs. **This is not a student loan so there are no payback requirements. Rather, the government has designed these programs to help you change your life by becoming qualified to enter the Executive field and provide a sustainable lifestyle for you and your family.**

This opportunity puts you on a path to entering a career that allows to become independence, progress and potential unlimited income.

BIS has helped over a thousand people to obtain their State GOV License to enter the above fields with the skills and knowledge employers need.

This is not only a Pre-Licensing Exam Preparation program. The skill training program teaches you the skills you need to be successful. A summary of our program is available on the CalJobs website under program code No. 521701.

Our programs prepare individuals to manage risk and provide advice to individuals and businesses. The program includes instruction on **Business , Finance and insurance Coverages, and or as a professional Security** to explain to individuals in the real world terms **the risk they face daily and how to minimize and manage that risk.** You will be able to understand to explain liability to individuals and business owners alike so they can make informed decisions that, if handled wrong, could affect their entire lives.

Whether it is an Auto Insurance, Home Insurance, Business Insurance, Workers Compensation Insurance, Health Insurance or Life Insurance we help you learn how to navigate the complexities of selling, underwriting and handling claims situations, to perform as Investigator, or Security **Executive programs will allow you to achieve a professional occupation in a high paying career.**

-Q: Does getting a GOVERNMENT License lead to a successful career?

-A: Passing the State Exam is only the first step. A critical step, because it allows you entry, but still a first step. More important is: what you do with that license, We prepare you a to impress your future employers with your knowledge. **Too often people get a license and then are lost on how to use it,** we teach you the foundation you need to impress your future employer that little bit of difference will make them choose you over the other person applying next to you.

-Q: Why these careers in the Executive, Administrative Insurance or investigative field is so desirable?

-A: These fields are one of the most important necessity in our daily life and last industries where you control your destiny, where you have unlimited income potential. The only limitation is your individual drive and desire. You don't need a specialized four year college degree, you only need the tenacity to build the habits of doing the hard work that others are unwilling to do. **Imagine yourself making a six figure income within five years,** this has been done over and over again. Imagine having the freedom and flexibility to set your own hours so you can be part of the important life events of your family, this is one the benefits of these field.

-Q: Is all of the cost of this training covered? YES

We believe if you are willing to take control of your life, and the State is willing to invest in you, that should be enough. The entire education program offered by BIS School is WIOA qualified on the CalJobs website under program Code No. 521701. That means the entire cost is covered under the voucher given by your EDD Case Worker.

It is time to invest in yourself and realize your full potential. Let us help you take the first step in realizing your dream.
